Technical Skills

- Workday Extend
  - Workday Orchestration
  - Custom Business Process
  - Business Object
  - Custom Security Domain
  - XML/ XSLT/ JSON
- Workday HCM
  - Custom Report
  - EIB
  - PRISM

SUMMARY

I am a **Certified Workday PRO** Extend Developer with 2 years of experience in designing and implementing innovative solutions to streamline business workflows using Workday technology. Successfully developed **7 applications** on **Workday Extend**, addressing critical workflows such as offboarding, return-to-office processes, security assignments, BRM alerts, and job requisition management. Experienced in HR technology, with a keen interest in leveraging **Generative AI** to drive automation and optimize business processes.

Global Rank 15: Workday Developer forum

WORK EXPERIENCE

- **Marsh McLennan | Senior Engineer - Application Development**

  2023 - Present

- Implemented Business process driven Orchestration services to create a streamlined, event-driven process (including Approve, Send Back, Cancel) and tasks within the Workday system.
- Employed Business Process-driven Orchestration using **SOAP**, **REST**, and **WQL** APIs to fetch and update data in Workday through **Orchestration**.
- Enhanced application performance through the utilization of **Indexed** data Sources and **Workday Extend Scripts**.
- Ensured the standardization of the application's user interface (UI) by integrating advanced UI functionalities of Extend, such as **Hub**, Cards, Tasks, Grid, Micro Pages, and **InstanceList**.
- Implemented **RAAS** (Report-as-a-service) for crafting custom reports to retrieve data from Workday.
- Developed an **EIB** integration using **Integration for Orchestrations** to transform custom report data into **CSV** output with Text Template and scripts.
- Developed a **scalable**, **configurable** solution to **Automate API** creation using **PRISM** data sources and WQL.
- Used custom UI components like **SnapSlider**, FormLayout, MicroPage, and dynamic charts, enhancing application aesthetics and functionality.
- Introduced an **innovative** solution to enable data editing on the BP approval page, which is traditionally a view-only page. Achieved this using the **SuperEdit** widget & **PageActionButton**, OnSubmit.
- Developed a reusable **Workday Alert** System using orchestration and **Connect API**.

- Programming Languages
  - C++/ Python / JavaScript
- Data Analysis: Excel/ Power BI
- Presentation: PowerPoint
- Process Mapping: Visio

Personal Skills

- Leadership
- Managerial Roles
- Team Coordination
- Adaptability
- Creativity
- Communication

Extracurricular

- Child Scientist: 21st National Children Science Congress

PROFESSIONAL EXPERIENCE

- Collaborated with clients to gather and analyze business requirements, ensuring alignment with project objectives and timelines.
- Conducted detailed discussions with stakeholders to translate their needs into technical specifications for system development.
- Delivered Extend application with great client satisfaction.
- Created comprehensive design documents and architecture diagrams to outline app data flow and design.
- Used Figma / Custom pages to show the clients about UI.

TRAININGS & CERTIFICATIONS

- Workday Extend PRO | Workday | 2025
- Workday Extend: Advanced Presentation Components | Workday | 2024
- Workday Extend: Advanced data and Orchestration | Workday | 2024
- Workday Report Writer | Workday | 2024
- Learning REST APIs | LinkedIn | 2024
- Developing Back-End Application with Node Js. And Express | Coursera
- Databases and SQL for Data Science with Python | Coursera
- Introduction to Data Analysis using Excel | Rice University

EDUCATION

- **Indian Institute of Technology, Bombay** ***2021- 2023***
  MTech. in Metallurgical Engineering & Materials Science

  CGPA: 8.8
- **Indian Institute of Technology, Guwahati** ***2019-2021***
  MSc. Chemistry

  CGPA: 8.23

Achievements

- Secured **99.01 percentile** in GATE Chemistry 2021
- Secured **97.27 percentile** in IIT-JAM Chemistry 2019
